Environmental Policy

FLIR Systems AB is committed to protecting the local and global environment. To minimize environmental impacts from our activities and products, including prevention of pollution, we shall:

- Comply with applicable legal requirements and other requirements which relate to the company's environmental aspects;
- Work with reduction of greenhouse gas emissions and energy leakage globally by having an attractive and easily available product offering to our customers;
- Be committed to ensure that protection of environment is embedded in company culture and in strategy work.

This policy will be communicated to all staff, suppliers and distributors, and be available to the public through selected media. FLIR Systems AB shall keep the compliance obligations updated, ensure that operations are carried out in accordance to compliance obligations, regularly evaluate fulfilment of the compliance obligations and correct nonconformities.

Signed:

Flir Systems AB Management Team
